Subject index

Acidic medium
Electrochemical oxidation of indole-3-acetic acid: mechanisms and products formed in acidic medium (Hu, Dryhurst) 237
Acidobasic membrane
Anodic oxidation of pyrroles N-substituted by groups possessing tertiary amine functions to a new kind of acidobasic membrane (Courric et al.) 291
Adatoms
Electrocatalytic oxidation of formic acid on Pt binary and ternary electrodes in H_3PO_4 (El-Shafei et al.) 159
Adsorption
Adsorption of halide ions Cl^-, Br^- and I^- on the basal face of a cadmium single crystal (Naneva et al.) 281
Alkaline solutions
Electrochemical indication of surface reconstruction of (100), (311) and (111) gold faces in alkaline solutions (Štrbac et al.) 47
Anodic electrodeposition
Electrocatalyst coatings for oxidations of alcohols based on anodic electrodeposition from solutions of $Ru(OH_2)_6^{2+}$ (Shi, Anson) 273
Anodic oxidation
Anodic oxidation of pyrroles N-substituted by groups possessing tertiary amine functions to a new kind of acidobasic membrane (Courric et al.) 291
Asymmetric cells
Simple hierarchical impedance functions for asymmetric cells: thin-layer cells and modified electrodes (Buck et al.) 33
Au electrode
Kinetics of nitrate reduction by cobalt-cyclam incorporated Nafion® redox polymer (Ma et al.) 201

Biological electron transfer reaction
Dimethylbenzoquinone-mediated photoelectrochemical oxidation of water at a carbon paste electrode coated with photosystem II membranes (Amako et al.) 71

Cadmium single crystal
Adsorption of halide ions Cl^-, Br^- and I^- on the basal face of a cadmium single crystal (Naneva et al.) 281
Charge density effects
Electrochemical indication of surface reconstruction of (100), (311) and (111) gold faces in alkaline solutions (Štrbac et al.) 47
Charge propagation
Charge propagation through a redox polymer film containing enzymes—effects of enzyme loading, pH and supporting electrolyte (Elmgren et al.) 227
Charge transfer
Metal electrodeposition on semiconductors. Part III: Description of charge transfer and implication for the formation of Schottky diodes (Allongue et al.) 89
Charging–discharging behaviour
Charging and discharging behavior of zinc–manganese dioxide galvanic cells using zinc sulfate as electrolyte (Shoji, Yamamoto) 153
Chemical equilibrium
Chemical equilibrium in Cr(III) + phenanthroline solutions. Voltammetric analysis using four-electrode systems (Yudi, Baruzzi) 141
Clay films
Dual electroactive probes of clay film chemistry (Fitch, Subramanian) 177
Co-cyclam
Kinetics of nitrate reduction by cobalt-cyclam incorporated Nafion® redox polymer (Ma et al.) 201
Cr(III) + phenanthroline solutions
Chemical equilibrium in Cr(III) + phenanthroline solutions. Voltammetric analysis using four-electrode systems (Yudi, Baruzzi) 141
Current transient analysis
Metal electrodeposition on semiconductors. Part 2. Description of the nucleation processes (Allongue, Souteyrand) 79
Current–voltage oscillations
Perspectives for correlated single-electron tunnelling (SET) in ultrasmall electrochemical contacts (Kuznetsov, Ulstrup) 147
Cyclic voltammetry
Cyclic voltammetry studies of copper and nickel hexacyanoferrate immobilized on a silica gel surface coated with titanium(IV) oxide (Kubota, Gushikem) 219
On the nature of redox processes in the cyclic voltammetry of polypyrrole nitrate in aqueous solutions (Li, Qian) 267

Diode behavior
Dual electroactive probes of clay film chemistry (Fitch, Subramanian) 177
Dioxide galvanic cells
Charging and discharging behavior of zinc–manganese dioxide galvanic cells using zinc sulfate as electrolyte (Shoji, Yamamoto) 153
2,6-Diphenylphenolates
Multiple reaction pathways for the oxidation of 2,6-diphenylphenolates (Hapiot, Pinson) 257
Distribution function
Distribution of the nucleation rate in the vicinity of a growing spherical cluster. Part 1. Theory and simulation results (Milchev et al.) 21
Doping sites
On the nature of redox processes in the cyclic voltammetry of polypyrrole nitrate in aqueous solutions (Li, Qian) 267
Dual electroactive probes
Dual electroactive probes of clay film chemistry (Fitch, Subramanian) 177

Electrocatalysis
Electrocatalytic oxidation of formic acid on Pt binary and ternary electrodes in H_3PO_4 (El-Shafei et al.) 159
Kinetics of nitrate reduction by cobalt-cyclam incorporated Nafion® redox polymer (Ma et al.) 201

Electrocatalyst coatings
Electrocatalyst coatings for oxidations of alcohols based on anodic electrodeposition from solutions of $Ru(OH_2)_6^{2+}$ (Shi, Anson) 273
Electrocatalytic activity
Electrocatalytic activity of $Li_xNi_{1-x}O$ ($0 \leq x < 0.5$) solid solutions in the oxygen evolution reaction (Nikolov et al.) 119
Electrochemical kinetics
The role of morphology in the methanol electro-oxidation reaction (Christensen et al.) 207
Electrochemical modulated liquid chromatography
Electrochemically modulated liquid chromatography (EMLC): a new approach to gradient elution separations (Deinhammer et al.) 295
Electrochemical oxidation
Electrochemical oxidation of indole-3-acetic acid: mechanisms and products formed in acidic medium (Hu, Dryhurst) 237
Multiple reaction pathways for the oxidation of 2,6-diphenylphenolates (Hapiot, Pinson) 257
Electrodeposition
Metal electrodeposition on semiconductors. Part 2. Description of the nucleation processes (Allongue, Souteyrand) 79
Metal electrodeposition on semiconductors. Part III: Description of charge transfer and implication for the formation of Schottky diodes (Allongue et al.) 89
Electrode reactions
Photoelectron injection into aqueous and methanolic solutions saturated with SF_6 (Kalugin et al.) 185
Electrolyte effects
Charge propagation through a redox polymer film containing enzymes—effects of enzyme loading, pH and supporting electrolyte (Elmgren et al.) 227
Electron scavengers
Photoelectron injection into aqueous and methanolic solutions saturated with SF_6 (Kalugin et al.) 185
Electropolymerised films
A review of the immobilization of enzymes in electropolymerized films (Bartlett, Cooper) 1
Energy barriers
The p-InP semiconductor/electrolyte contact under depletion conditions: impedance, reverse currents and photopotentials (Schefold) 97
Enzyme immobilization
A review of the immobilization of enzymes in electropolymerized films (Bartlett, Cooper) 1
Enzyme loading effects
Charge propagation through a redox polymer film containing enzymes—effects of enzyme loading, pH and supporting electrolyte (Elmgren et al.) 227
Enzyme + polymer electrodes
A review of the immobilization of enzymes in electropolymerized films (Bartlett, Cooper) 1
EPR spectra
Electrochemical, spectroelectrochemical and EPR properties of poly(pyrrole-viologens) (Lapkowski, Bidan) 249
Ethylene thiourea
A study of the voltammetric response of thiourea and ethylene thiourea at gold electrodes in alkaline media (Vandeberg, Johnson) 129

Fast cyclic voltammetry
Measurements of standard potentials for nucleophiles by fast cyclic voltammetry. I: 9-substituted fluorenide ions in dimethyl sulphoxide (Lund, Pedersen) 109
Fluorenide ions
Measurements of standard potentials for nucleophiles by fast cyclic voltammetry. I: 9-substituted fluorenide ions in dimethyl sulphoxide (Lund, Pedersen) 109
Formic acid oxidation
Electrocatalytic oxidation of formic acid on Pt binary and ternary electrodes in H_3PO_4 (El-Shafei et al.) 159
Fuel cells
The role of morphology in the methanol electro-oxidation reaction (Christensen et al.) 207

Gold electrodes
A study of the voltammetric response of thiourea and ethylene thiourea at gold electrodes in alkaline media (Vandeberg, Johnson) 129
Gold faces
Electrochemical indication of surface reconstruction of (100), (311) and (111) gold faces in alkaline solutions (Štrbac et al.) 47
Gradient elution separations
Electrochemically modulated liquid chromatography (EMLC): a new approach to gradient elution separations (Deinhammer et al.) 295
Growing spherical cluster
Distribution of the nucleation rate in the vicinity of a growing spherical cluster. Part 1. Theory and simulation results (Milchev et al.) 21

Halide ions
Adsorption of halide ions Cl^-, Br^- and I^- on the basal face of a cadmium single crystal (Naneva et al.) 281
Hexacyanoferrate complexes
Cyclic voltammetry studies of copper and nickel hexacyanoferrate immobilized on a silica gel surface coated with titanium(IV) oxide (Kubota, Gushikem) 219
Hierarchical impedance functions
Simple hierarchical impedance functions for asymmetric cells: thin-layer cells and modified electrodes (Buck et al.) 33
Hydrophilicity
Adsorption of halide ions Cl^-, Br^- and I^- on the basal face of a cadmium single crystal (Naneva et al.) 281

2-Imidazolidinethione
A study of the voltammetric response of thiourea and ethylene thiourea at gold electrodes in alkaline media (Vandeberg, Johnson) 129
Impedance
The p-InP semiconductor/electrolyte contact under depletion conditions: impedance, reverse currents and photopotentials (Schefold) 97
Indole-3-acetic acid
Electrochemical oxidation of indole-3-acetic acid: mechanisms and products formed in acidic medium (Hu, Dryhurst) 237
p-InP
The p-InP semiconductor/electrolyte contact under depletion conditions: impedance, reverse currents and photopotentials (Schefold) 97
Ion pairing
Dual electroactive probes of clay film chemistry (Fitch, Subramanian) 177
Ion transfer
Chemical equilibrium in Cr(III) + phenanthroline solutions. Voltammetric analysis using four-electrode systems (Yudi, Baruzzi) 141
Ion transfer at a poly(3-octylthiophene) film electrode (Grzeszczuk et al.) 287

Kinetics
Kinetics of nitrate reduction by cobalt-cyclam incorporated Nafion® redox polymer (Ma et al.) 201

$Li_xNi_{1-x}O$
Electrocatalytic activity of $Li_xNi_{1-x}O$ ($0 \leq x < 0.5$) solid solutions in the oxygen evolution reaction (Nikolov et al.) 119
Lithium
Evidence for the highly oxidizing properties of NO_2^+ and NO^+ ions in organic media. Application to the study of nitrogen oxide/Li cells (Boughriet, Wartel) 167

Mathematical models
Steady-state investigation and electrochemical impedance spectroscopy: identifiability and distinguishability of metal dissolution and passivation mechanisms (Berthier et al.) 13
Distribution of the nucleation rate in the vicinity of a growing spherical cluster. Part 1. Theory and simulation results (Milchev et al.) 21
Metal dissolution mechanisms
Steady-state investigation and electrochemical impedance spectroscopy: identifiability and distinguishability of metal dissolution and passivation mechanisms (Berthier et al.) 13
Metal film
Metal electrodeposition on semiconductors. Part 2. Description of the nucleation processes (Allongue, Souteyrand) 79
Metal electrodeposition on semiconductors. Part III: Description of charge transfer and implication for the formation of Schottky diodes (Allongue et al.) 89
Metal passivation mechanisms
Steady-state investigation and electrochemical impedance spectroscopy: identifiability and distinguishability of metal dissolution and passivation mechanisms (Berthier et al.) 13
Methanol electro-oxidation reaction
The role of morphology in the methanol electro-oxidation reaction (Christensen et al.) 207
Modified electrodes
Simple hierarchical impedance functions for asymmetric cells: thin-layer cells and modified electrodes (Buck et al.) 33
Cyclic voltammetry studies of copper and nickel hexacyanoferrate immobilized on a silica gel surface coated with titanium(IV) oxide (Kubota, Gushikem) 219
Electrochemical, spectroelectrochemical and EPR properties of poly(pyrrole-viologens) (Lapkowski, Bidan) 249
Mo(III) species
Electrochemical and spectrophotometric studies of Mo(III) species in sulfuric acid media (Bertotti, Tokoro) 193
Monte Carlo simulation
Distribution of the nucleation rate in the vicinity of a growing spherical cluster. Part 1. Theory and simulation results (Milchev et al.) 21
Morphological effects
The role of morphology in the methanol electro-oxidation reaction (Christensen et al.) 207

Nitrate reduction
Kinetics of nitrate reduction by cobalt-cyclam incorporated Nafion® redox polymer (Ma et al.) 201
N-substituted pyrroles
Anodic oxidation of pyrroles N-substituted by groups possessing tertiary amine functions to a new kind of acidobasic membrane (Courric et al.) 291
Nucleation
Metal electrodeposition on semiconductors. Part 2. Description of the nucleation processes (Allongue, Souteyrand) 79
Nucleation rate
Distribution of the nucleation rate in the vicinity of a growing spherical cluster. Part 1. Theory and simulation results (Milchev et al.) 21
Nucleophiles
Measurements of standard potentials for nucleophiles by fast cyclic voltammetry. I: 9-substituted fluorenide ions in dimethyl sulphoxide (Lund, Pedersen) 109

Organic sulphur
A study of the voltammetric response of thiourea and ethylene thiourea at gold electrodes in alkaline media (Vandeberg, Johnson) 129
Oxidation
Evidence for the highly oxidizing properties of NO_2^+ and NO^+ ions in organic media. Application to the study of nitrogen oxide/Li cells (Boughriet, Wartel) 167
Oxygen evolution reaction
Electrocatalytic activity of $Li_xNi_{1-x}O$ ($0 \leq x < 0.5$) solid solutions in the oxygen evolution reaction (Nikolov et al.) 119
Oxygen oxides
Evidence for the highly oxidizing properties of NO_2^+ and NO^+ ions in organic media. Application to the study of nitrogen oxide/Li cells (Boughriet, Wartel) 167

pH effects
Charge propagation through a redox polymer film containing enzymes—effects of enzyme loading, pH and supporting electrolyte (Elmgren et al.) 227
Photopotentials
The p-InP semiconductor/electrolyte contact under depletion conditions: impedance, reverse currents and photopotentials (Schefold) 97
PIMES
Photoelectron injection into aqueous and methanolic solutions saturated with SF_6 (Kalugin et al.) 185
Polypyrrole nitrate
On the nature of redox processes in the cyclic voltammetry of polypyrrole nitrate in aqueous solutions (Li, Qian) 267
Poly(pyrrole-viologens)
Electrochemical, spectroelectrochemical and EPR properties of poly(pyrrole-viologens) (Lapkowski, Bidan) 249
Probe beam deflection experiments
Effect of the supporting electrolyte and beam diameter on probe beam deflection experiments (Rudnicki et al.) 55
Pt electrodes
Electrocatalytic oxidation of formic acid on Pt binary and ternary electrodes in H_3PO_4 (El-Shafei et al.) 159

Reaction mechanisms
Electrochemical oxidation of indole-3-acetic acid: mechanisms and products formed in acidic medium (Hu, Dryhurst) 237
Redox polymer film
Charge propagation through a redox polymer film containing enzymes—effects of enzyme loading, pH and supporting electrolyte (Elmgren et al.) 227
Redox processes
On the nature of redox processes in the cyclic voltammetry of polypyrrole nitrate in aqueous solutions (Li, Qian) 267
Reverse currents
The p-InP semiconductor/electrolyte contact under depletion conditions: impedance, reverse currents and photopotentials (Schefold) 97

Reverse pulse polarography
Electrochemical and spectrophotometric studies of Mo(III) species in sulfuric acid media (Bertotti, Tokoro) 193
$Ru(OH_2)_6^{2+}$
Electrocatalyst coatings for oxidations of alcohols based on anodic electrodeposition from solutions of $Ru(OH_2)_6^{2+}$ (Shi, Anson) 273

Schottky diodes
Metal electrodeposition on semiconductors. Part III: Description of charge transfer and implication for the formation of Schottky diodes (Allongue et al.) 89
Semiconductor–electrolyte contact
The p-InP semiconductor/electrolyte contact under depletion conditions: impedance, reverse currents and photopotentials (Schefold) 97
Semiconductor substrate
Metal electrodeposition on semiconductors. Part 2. Description of the nucleation processes (Allongue, Souteyrand) 79
Metal electrodeposition on semiconductors. Part III: Description of charge transfer and implication for the formation of Schottky diodes (Allongue et al.) 89
SF_6
Photoelectron injection into aqueous and methanolic solutions saturated with SF_6 (Kalugin et al.) 185
Single-electron tunnelling
Perspectives for correlated single-electron tunnelling (SET) in ultrasmall electrochemical contacts (Kuznetsov, Ulstrup) 147
Spectroelectrochemistry
Electrochemical, spectroelectrochemical and EPR properties of poly(pyrrole-viologens) (Lapkowski, Bidan) 249
Spectrophotometry
Electrochemical and spectrophotometric studies of Mo(III) species in sulfuric acid media (Bertotti, Tokoro) 193
Surface reconstruction
Electrochemical indication of surface reconstruction of (100), (311) and (111) gold faces in alkaline solutions (Štrbac et al.) 47

Thin-layer cells
Simple hierarchical impedance functions for asymmetric cells: thin-layer cells and modified electrodes (Buck et al.) 33
Thiourea
A study of the voltammetric response of thiourea and ethylene thiourea at gold electrodes in alkaline media (Vandeberg, Johnson) 129
Titanium(IV) oxide
Cyclic voltammetry studies of copper and nickel hexacyanoferrate immobilized on a silica gel surface coated with titanium(IV) oxide (Kubota, Gushikem) 219

Ultrasmall electrochemical contacts
Perspectives for correlated single-electron tunnelling (SET) in ultrasmall electrochemical contacts (Kuznetsov, Ulstrup) 147
Underpotential deposition
Electrocatalytic oxidation of formic acid on Pt binary and ternary electrodes in H_3PO_4 (El-Shafei et al.) 159

Voltammetric analysis
Chemical equilibrium in Cr(III) + phenanthroline solutions. Voltammetric analysis using four-electrode systems (Yudi, Baruzzi) 141

Zinc–manganese
Charging and discharging behavior of zinc–manganese dioxide galvanic cells using zinc sulfate as electrolyte (Shoji, Yamamoto) 153
Zinc sulphate electrolyte
Charging and discharging behavior of zinc–manganese dioxide galvanic cells using zinc sulfate as electrolyte (Shoji, Yamamoto) 153
